# Business Flow Chart

# Quality Policy

The Organization Quality Policy is a commitment to comply with the requirement of the Quality Management System and continually improve its effectiveness.

The Principal of Quality Policy are:

- ▶ Ensure that delivery of products is in accordance with the customer's contractual requirements, meets statutory, and regularity regulations, and provides reliable performance for the purpose intended.
- ▶ To involve all the employees in the improvement of the quality system, train them, and develop their skills in order to get the job done 'Right First Time' thereby eliminating the rework.
- ▶ Retain leadership position in the domestic market and increase our Global presence.
- ▶ Be a learning organization and seek continual improvement in our activities, aimed at increasing customer satisfaction.
- ▶ To maintain a quality system that conforms to the requirement of ISO 9001:2008 Quality Management System.

# Health Safety & Environment Policy

The Organization HSE Policy is a commitment to comply with the requirement of the Environmental and Occupational Health and Safety Management System and continually improve its effectiveness.

The Principal and Objectives of EHS Policy are:

- Mitigating the environmental impacts of our operations, products, and services through prevention of pollution, reduction of natural resources consumption, and applying control on the process emission.
- Preventing injury, ill health, and incidents.
- Comply with the legal, statutory, and other requirements applicable to the company in terms of Environment aspects, and Occupational Health & Safety.
- Continue improvement of Environment, Health & Safety Management System.
- Regular training to ensure the upgrading of EHS awareness and skills of our employees with respect to environmental aspects and occupational hazards.
- Reducing and recycling of waste.
- Review of Environment, Health & Safety policies for continuing suitability and setting EHS Targets.
- Complying with the Environmental, Health & Safety management system standards ISO 14001: 2004 & OHSAS 18001:2007.

# Mechanical Division

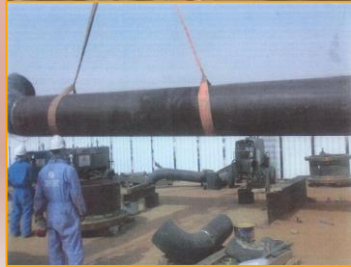

Since 2008 ADEEN TECHNOLOGY General Trading & Contracting Est. has successfully specialized in all mechanical works in oil & Gas, Petrochemical industries.

- Fabrication of Steel Structures and Process piping.
- Erection of Steel Structures and Process piping.
- Erection of Heavy equipment, valve and instruments.
- Fabrication and Machining of industrial items flange, wellhead, Flare, tower etc.
- Carried out Sandblasting, Painting & Fireproofing.
- Repair and maintenance works.

## GC-16 Fit up & Welding Activities

## 6" Flow Line Welding Activities (KOC EWIP -1)

## UG Pipeline Lowering

# Equipment Erection (KOC EWIP – 1)

## Site Office Facilities

## Transport Facilities

# Fabrication Workshop

**Fabrication Workshop located at Mina Abdullah area with 6500 SQM with added space specially built to facilitate blasting and painting. The workshop consists of all facilities to carry out steel Structures, pipe spools fabrication, and Erection activities.**

# Maintenance Division

ADEEN TECHNOLOGY General Trading & Contracting Est has started maintenance division in the year 2009, As a leading building services, we can provide you with efficient and cost-effective building maintenance and ensure that your building is a safe and comfortable place to work.
